If you're looking for a Medical Assisting program look no further! Mr. González is a great instructor and pushes his students to become GREAT medical assistants. He will push you to the limit and if you want to become a CCMA he will push you even further. This is the school you've been looking for!

I took the Medical Assisting Program with Mr. Gonzalez and he was an amazing and extremely knowledgeable instructor. He was very patient and understanding towards my class in regards to the lectures, class work and during the externship phase of the course. Mr. Gonzalez is an instructor with previous experience working as a Medical Assistant and has a BSN for a Physicians Assistant from the prestigious Charles Drew University for Health Sciences/UCLA.

I took Mr. Gonzalez' Medical Assisting class this past semester and I had a great experience. Mr. Gonzalez is not only a Medical Assistant and a Physician Assistant, he also has a year of Registered Nursing experience! His class was very informational and I am so happy to have had him as my professor. He has taught me so much and I am confident that my skills and abilities will take me far. Thank you Mr. Gonzalez! I highly suggest you all take his course, he is the best :) ELASC is a great campus, security ensures that you are safe while on campus and staff is friendly. Attend if you want a great education!

It's A good school to get certificates or better experience on what you want to get your experience on. I'm taking the buildings and grounds class here. I paid 60 bucks for it, why not experience is worth it.

Excellent photovoltaic program. Mr. Calderon and Mr. Ruiz are the best instructors there are in all Social. So far the only school that does hands on and gives you the best training for the NABCEP certification.
